BE HEARD. GET RESULTS.

A member of the Sanford Rose Associates® network of offices.

Senior Project Manager

Are you interested in the opportunity to work for an industry-leading company that will give you the experience and exposure you need to build your career and personal brand? If so, then you've come to the right place!

Company Information

1. Founded before the Great Depression in California, this organization has come a long way. With an annual revenue of over \$1 billion, this publicly owned business is consistently ranked as a top contractor for water resources/WWTP and Transportation among ENR's top contractors in the US. Not only are they listed as a top company overall, but they also rank among the top companies for new contracts, both domestically and abroad. No doubt, they will be a top performer well into the future.
2. You will have a massive number of resources at your fingertips, for instance, a \$1 billion equipment fleet, to build world-class iconic projects using the most advanced equipment on the market!
3. The position reports to a dynamic leader of the Water Resources division for Las Vegas who has been with the firm for over 20 years. In addition, you will get to work with a coach who has a tremendous amount of experience in the Las Vegas Water/ WWTP world. You will have full advantage from the team to help grow this region, including high-level executives of the firm.

Why this role?

1. This is your opportunity to be part of something big: growing a new(er) division within an extremely successful and financially secure \$1 billion construction company.
2. Setup for success with \$460 million in a backlog of alternative delivery water/WWTP projects with great clients
3. Excellent partners already in place
4. You will be leading the charge to grow the Las Vegas team.
5. No State Tax in Nevada and a great relocation package
6. Very little travel/drive time and you will be home every night.
7. Challenge: This position will vary depending on the experience of the candidate, ranging from SME for water projects to a business owner type of role responsible for developing this sector.
8. Location: Las Vegas area, a city known for its nightlife and diversity of food and entertainment. Las Vegas is also within a few hours of several national parks.
9. Advancement: This position will grow along with the division, with the potential to move into Area Manager.
10. Money: Very competitive total compensation package and bonus structure.
11. People: You will have the opportunity to work with and learn from one of the top water/WWTP contractor consultants in the US. Additionally, your direct manager has been at this company for over twenty years and can guide you through the ins and outs of the organization.
12. Stability: A growing region with a \$460 million backlog in Las Vegas alone makes this opportunity very stable for the foreseeable future.

Your Role with the Company

As the Senior Project Manager, you are the SME of water/WWTP projects, such as treatment plants, mechanical piping above and below ground, pump houses, lift stations, etc.

1. Primarily work in water/WWTP and alternative delivery procurement, know how to write, interview for it, build it, start-up and commission, chain of custody/cyber security for super sensitive information.
2. Work with mechanical piping 20" to 40". You can speak at length about the components that go into these systems, and you know the game of mechanical contracting.
3. Pursuit and estimation of projects.
4. Grow your sector with an entrepreneurial spirit.

Community Information

You will be based in Henderson, NV <https://www.cityofhenderson.gov.com/>. Zero-little travel. Home every night. The Las Vegas <https://www.lasvegasnevada.gov/> area has something for everyone with the Raiders and the Oakland A's, the Sphere, and endless entertainment. Living in Henderson gets you out of the nightlife but close enough to enjoy all the legendary city has to offer.

Background Profile:

1. Expertise in water/WWTP construction (treatment, conveyance, sewers, and sewer rehab) from a self-performing contractor (10+years preferable, 7+ required)
2. Bachelor's in mechanical engineering or equivalent in experience
3. Las Vegas Water/WWTP experience is a huge plus.
